SSC - HSC

2018 - 2022

B.E. in Information Technology  
Gujarat Technological University

## SKILLS

Python  
JavaScript  
Scrapy  
NodeJS  
MongoDB  
MySQL

## WORK EXPERIENCE

### Fresher

Freelance

2022 - 2023

- I am a certified Cloud Practitioner, certified by Udemy, with a comprehensive understanding of cloud concepts and practices. My expertise extends to developing dynamic websites using Bootstrap, React.js, and JavaScript.
- I have also successfully built APIs using Node.js, enabling efficient data communication. In addition, I have crafted live scraping crawlers using Python, leveraging AWS Lambda to ensure their continuous operation across various endpoints.

2023 - Present

- Actively preparing for the Certified Cloud Practitioner Exam.
- Between this I am upgrading myself to better prepare for future responsibilities and new challenges.

## PROJECTS

### About

2022 - 2023

- I successfully completed a project using Node.js and React.js, where I designed templates using Bootstrap and developed APIs with Node.js. Additionally, I utilized Python to perform web scraping on various websites and gained experience in AWS Lambda.
- Here i am sharing the link of my Todo app which i have created with ReactJS and NodeJS.  
<https://sagarkhatridk.github.io/inotebook/> Go to SignUp page I have also created NewsApp with the help of ReactJS and NodeJS
